"Climate Crusaders Conned in Copenhagen."

Media Release
28th December 2009

A Statement by Mr Viv Forbes, Chairman, The Carbon Sense Coalition, Australia.

The Carbon Sense Coalition today called on the Australian Parliament to repudiate the Copenhagen giveaways promised by PM Rudd to the failed states of Africa and the welfare beggars of the islands.

The Chairman of "Carbon Sense", Mr Viv Forbes, said that the three Climate Crusaders, Obama, Brown and Rudd, had been comprehensively conned in Copenhagen by African mendicants and fakers from the islands.

"They have agreed to hand over mega-bucks of our money (anywhere from \$5 billion to \$100 billion) as compensation for alleged damage caused by our production of carbon dioxide – the Africans citing climate damage and the islanders claiming rising sea levels.

"Even a cursory examination of the facts would prove that both of these claims are fraudulent.

"There is no evidence that carbon dioxide has caused global warming, or causes damage to any aspect of life on earth. The vast majority of earth's warming originates from the sun, and fluctuations there are the major cause of climate changes.

"In addition, careful recent surveys show no unusual rising of sea levels.

"Moreover, all plant and animal life on earth benefit from industry's production of carbon dioxide. Crops, grasses, forests and fruit trees are growing more profusely, the planet is becoming greener, and the oceans can produce more algae, more plankton and more life - all because of this free bounty of aerial plant food released whenever carbon fuels are burnt.

“Carbon dioxide is not a pollutant – it is a boon to all mankind. Africa and the islanders should pay us to release more valuable carbon dioxide, not the reverse.

“This giveaway is just a back door extension of the foreign aid program which has done so much harm to both donors and recipients.

“The vast majority of mendicant African nations have sterilised vast agricultural and mineral resources by their failed political systems. The foreign aid has mainly assisted their dictatorial governments to stay in power, harm their people and amass ill-gotten wealth.

“To increase the resources controlled by these dictators does nothing to improve the lot of their ordinary citizens.

“What they need is not welfare or climate compensation, but investment funds, low cost reliable energy, efficient infrastructure, sound currency, fair taxation and secure property rights.”

**“Global Warming”
is just another term for
“Good Weather.”**

Orson Scott, SF Author. (Many people in the Northern Hemisphere will now agree with this).
