

# Are we really wrecking the World? Is our Breath of Life {CO2} the cause?

---

## ANTHROPOGENIC GLOBAL WARMING OR NATURAL CLIMATE CHANGES?

**What: Hear the facts and the fiction behind climate change**

**When: Friday 29 January, 2010, 3.00 – 5.00pm**

**Where: Tara Ballroom, The Irish Club, 175 Elizabeth Street, Brisbane, 4000**

To cover costs a donation of \$20 pp or \$10 pp for concession holders will be collected at the door.

---

Following up on his open, and still unanswered letter to Kevin Rudd, of 1 Jan 2010; and his long standing, unanswered, invitation to debate with Al Gore on the real issues of climate change; Lord Christopher Monckton is travelling to Australia to present the real “Inconvenient Truth” about the premise of the new quasi-religion of guilt and shame, surrounding “Carbon Footprints”, “Global Warming” and “Climate Change”. The Prime Minister verbally attacked Viscount Monckton in his 6<sup>th</sup> November 2009 speech to the Lowy Institute; prior to taking his entourage of 114 staff to Copenhagen.

Christopher’s whirlwind speaking tour down under is being underwritten by a couple of retired Aussie scientists (and their wives); because they believe that we are only being presented with a biased view on climate change and its causes. This trip is not sponsored by the Oil or Coal Industries; rather it is sponsored by Australians who want to see a rational and objective presentation on climate change and not one of alarmist doomsday rhetoric. Christopher is recognized as one of the World’s most acclaimed speakers for the truth about CO2 and its part in Anthropogenic (man-made) Global

Warming. Come and hear the facts behind the fiction that the government and the media have refused to acknowledge.

On Tour with Lord Monckton, is Professor Ian Plimer. They will be joined on stage in the Irish Club Ballroom, by the Chair of the Meeting, Professor Bob Carter. Two of Australia's senior scientists who are also not afraid to speak the truth.

There will be two events on the day. The first event will be at the Hilton Hotel for a debate and luncheon to be hosted by the Brisbane Institute. RSVP and details about this event can be found at the following link:

[www.brisinst.org.au](http://www.brisinst.org.au)

This second event will be held at The Irish Club, and will be chaired by Professor Bob Carter, and consist of presentations followed by questions, which will be encouraged and welcomed. The Irish Club is located directly across the road from the Hilton Hotel; and the event will run from 3.00 – 5.00pm. Doors open at 2.30pm.

**Christopher Walter Monckton, 3rd Viscount Monckton of Brenchley.** Lord Monckton is Chief Policy Advisor to the Science and Public Policy Institute. He was Special Advisor to British Prime Minister Margaret Thatcher from 1982 to 1986. Lord Monckton is a widely recognized expert on climate sensitivity. His climate change lecture to Cambridge University undergraduates was later turned into a full-length feature film (funded by SPPI) titled "Apocalypse? NO!". Recently, Lord Monckton has devoted his work toward challenging the so-called "consensus" of scientists on climate change. Along with giving lectures and writing scholarly analyses, Monckton has testified before a subcommittee of the U.S. House of Representatives. He has openly challenged Al Gore to a debate on global warming and has also issued an open letter to Prime Minister Kevin Rudd both of which remain unanswered.

**Ian Plimer, PhD,** Professor of Geology, School of Earth and Environmental Sciences, University of Adelaide. Emeritus Professor of Earth Sciences, University of Melbourne, Australia. A number of papers refuting AGW have already been published under Professor Plimer's name. In 2009, Ian released *Heaven and Earth*, a book in which he claims that climate models focus too strongly on the effects of carbon dioxide, rather than factoring other issues such as solar variation.

**Robert (Bob) M. Carter** is a very high profile AGW sceptic in Australia. He prefers to call himself a climate rationalist. Bob is a former Professor of Earth Sciences, now a Research Professor at James Cook University (Qld) and Adelaide University (South Australia). He is also a Palaeontologist, Marine Geologist and an environmental scientist in climate change research. Bob has acted as an expert witness on climate change before the U.S. Senate Committee of Environment & Public Works, the Australian and N.Z. parliamentary Select Committees into emissions trading; and in a meeting in parliament house, Stockholm. He was also a primary science witness in the U.K. High Court case of *Dimmock v. H.M.'s Secretary of State for Education*, the 2007 judgment which

identified nine major scientific errors in Mr Al Gore's film "*An Inconvenient Truth*".

**What do we really know about the Science of Climate Change?  
The Australian public needs to understand the rational science of  
“Climate Change”, instead of the alarmist “hype” that has dominated  
both the government’s agenda and the media in recent years.**

***‘AUSTRALIANS DESERVE TO HEAR ALL SIDES AND MAKE UP THEIR OWN  
MINDS ABOUT THE CLIMATE CHANGE DEBATE’***

When History sees us overcoming injustices and mankind moves ahead into a Golden Age of Enlightenment. Will we look back and see how we were under the spell of something like this:---

**PLEASE PASS THIS ON TO ANY OF  
YOUR FRIENDS OR COLLEAGUES,  
TO COME AND HEAR THIS  
ENLIGHTENING TOUR**

Because this is such a controversial “Current Affair”, security will be on hand for the event; and at the discretion of the Chair. Inquiries can be directed to Tony Gomme on 0413100055 / [tonygomme1@yahoo.com.au](mailto:tonygomme1@yahoo.com.au); or Leah on 0405791860 / [leah2604@gmail.com](mailto:leah2604@gmail.com). Those who would like to assist the Australian scientists that have committed over \$100,000 to this Australian capital city speaking tour may donate to:--
