

FIGHTING THE GREEN ENEMY

October 2014 addendum: The tragedy of the current Ebola outbreak reminds us that at least one member of the Green Enemy is on record advocating Ebola as a desirable means of mass killing. Read on.

FIGHTING THE GREEN ENEMY

Let's call things by their real names. Many of the advocates of the Carbon Tax and the MRRT are hostile to prosperity, hostile to civilisation, hostile to the poor, and hostile towards humanity generally. They really do want us to starve to death in the dark.

This presentation shows some of the frightening statements listed by the gurus of the Greens. Read, learn and then plan to defend Australia against seriously twisted people.

Dr. Eric
Pianka

AIDS is not an efficient killer because it is too slow. My favourite candidate for eliminating 90 percent of the world's population is airborne Ebola, because it is both highly lethal and it kills in days, instead of years.

**Greens
attacking
humanity**

GREEN ENEMY

The only real good technology is no technology at all. Technology is taxation without representation, imposed by our elitist species (man) upon the rest of the natural world.

The aim of an Australian carbon tax should be to shut down the local coal industry. That (mine closure) has to be the outcome. You know the coal industry has to be replaced by renewables.
