“Lights Out”

The Carbon Sense Newsletter, October 2017.

By Viv Forbes (words) and Steve Hunter (illustrations)

For yonks they waged a war on coal
And painted miners black;
They threw explorers on the dole
And shut the gates outback.

The land was closed to oil and gas
And nukes were always banned;
While wind and sun got all the brass
And uglified the land.
Poles and turbines all in ranks
Sprouted on the hills;
The carbon credits pleased the banks
And households got the bills.

Then all the factories fled offshore
As puny power flickered;
More jobs were lost for evermore
As politicians dickered.
Then one still night the lights went out
And blackouts stalked the land;
The pollies quickly turned about
And Greens were spurned and banned.

“Daring to Doubt”
by Tony Abbott:

“Climate change is by no means the sole or even the most significant symptom of the changing interests and values of the West. Still, only societies with high levels of cultural amnesia could have made such a religion out of it. Beware the pronouncement, “the science is settled”. It’s the spirit of the Inquisition, the thought-police down the ages. Almost as bad is the claim that “99 per cent of scientists believe” as if scientific truth is determined by votes rather than facts.”
—Tony Abbott, 2017 Annual GWPF Lecture, London 9 October 2017

“Escaping the Renewable Energy Trap”
by Alan Moran:
“The Paris Agreement”
by President Donald Trump
What he really said.
https://www.thegwpf.com/reminder-what-president-trump-really-said-about-the-paris-agreement/

Serious Defects in Australia’s Energy Policies
A group of retired senior engineers challenge Australia’s bi-partisan energy foolishness. See:

Personal:
Thanks to all of those who sent well-wishes on our moving adventure and downsizing of our lives. Some even sent contributions to the depleted Carbon Sense cause.

We are making progress on the shift. As an experienced shifter predicted, we have reached the “where did we put that” stage.

Next we will be saying – “why did we keep that stuff”.

But our office is now working and more Carbon Sense will flow again. Thanks for your support.

“Carbon Sense” is an independent newsletter produced for the Carbon Sense Coalition, an Australian based organisation which opposes waste of resources, opposes pollution, opposes the baseless war on carbon fuels and promotes the rational un-subsidised use of all energy resources including coal, oil, gas, hydro, nuclear, wind, solar and geo-thermal.

Literary, financial or other contributions to help our cause are welcomed. We get no government grants and unlike many of our opponents, we do not pose as a charity and in fact pay GST and income tax on our operations. We live on subscriptions alone.

For more information visit our web site at www.carbon-sense.com
If you would like to keep Carbon Sense operating, send subscriptions to Carbon Sense Pty Ltd, by post to the address below, or direct deposit to:
Acct No: 553 077 331
BSB: 334-040

Please spread “Carbon Sense” around.
Authorised by: Viv Forbes, Chairman, 1907 Ipswich-Boonah Road, Washpool Qld 4306 Australia.

To Unsubscribe send a reply with “Unsubscribe” in the subject line.

Please make sure we are an allowed sender (“white listed”) or your spam checker will stop us and you may never know. Please let us know when you change your email address or if you have not heard from us in ages.
